

Hi, Gord

When I got Buchans Plateau this year on the draw It was a new area I never hunted before. On my travels into the country I had the opportunity to meet some of the finest bunch of hunters from Buchans you could ever meet. The weather was great, the morale was good and lots of grub on the go. Some of the best hunts happen unplanned and this was one of them. I just want to say that this hunt was one of my most memorable and want to say a special thanks to the people of Buchans. I hope you can post this message and pic for your readers. Fantastic country. Thanks again.
